Your Ref

Date 13 February 2013

Dear Sirs,

Re:

This letter confirms that your client's application for an Accession worker card has been approved. The document is enclosed.

The document restricts your client to the following employment:

Name of employer: Hospital Nhs Trust

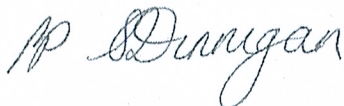

Category of employment:

If your client stops working for the employer as specified on the Accession worker card, the card will cease to be valid. If your client wishes to change employer or to engage in a different category of employment, they will need to apply for a new Accession worker card in respect of the new employment before starting the new job. If your client engages in employment other than that specified on the enclosed document without obtaining a new Accession worker card, they may be committing a criminal offence.

Your client's Accession worker card will remain valid for as long as they remain with the employer specified on it. Once your client has completed 12 months of continuous and lawful employment in the United Kingdom, they may apply for a Registration Certificate confirming that they are not subject to any restrictions on taking employment in the United Kingdom.

Your client should now sign the Accession worker card and complete the address section with their details.

Yours faithfully,

Maria Napier
Temporary Migration Team 27
